Make groups of 10 and count the tens and ones. Then add them up to find the total

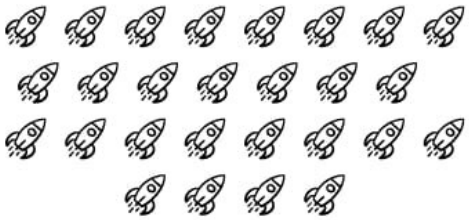

** Remember that a ten is 10 units.

How many tens have you counted ?

How many units are remaining?

How many hearts are there in total?

How many tens have you counted ?

How many units are remaining?

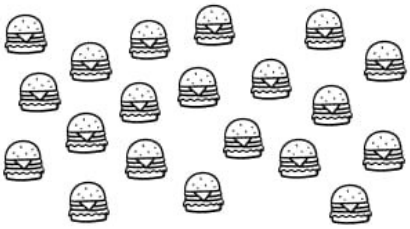

How many rockets are there in total?

How many tens have you counted ?

How many units are remaining?

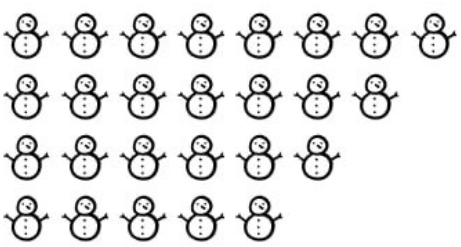

How many emojis are there in total?

How many tens have you counted ?

How many units are remaining?

How many burgers are there in total?

How many tens have you counted ?

How many units are remaining?

How many snowmen are there in total?
